## President's Message

From Linda Carey and Nancy McCormack

Our message this month is taking its cue from the month of February itself . . . Short and Sweet. (Have you observed all that candy in the stores right now!)

We sincerely hope that those of you who have had the flu, colds, stomach viruses, etc. are back to good health and that we all remain healthy for the remainder of this strange winter. There is much to do and learn in the months ahead so, please, place yourselves in germ-free, protective bubbles.

If you have the opportunity and access to Face book, you may enjoy looking at some of Jamee Pemberton's work. We are sure Jamee's lecture this month, *From Gifts of Love to Finding a Creative Voice*, will inspire us all.

Remember to bring your Crazy Nine Patch to share if you participated in Jody Beck's January workshop.

Final thought from Carrie Nelson: "Whoever said LESS IS MORE never had a dessert and she certainly NEVER BOUGHT FABRIC."

## Oh, no a missed birthday in January.

Marie Schoen, one of our lovely charter members had a birthday on the 13<sup>th</sup> of January. She continues to age gracefully. Wish her a happy one when you see her even though it is late! Marie was our featured charter member in the November issue.

## Guest Speakers Workshops

In the future, payment is due when the member signs up for the workshop. It has become cumbersome for our workshop planners to have to call to remind people that they still owe money for the workshop. They need to spend their time planning the workshops

## Quilt of Valor Blocks

Remember if you are going to do some individual blocks for Quilts of Valor, Jane Nase needs them by April meeting. Jane was very pleased with how many people asked for information to participate. See Jane with any questions.

## Vice President's Message

From Angela Roman and Carol Singer

## Upcoming Lectures

**February 9**, at our regular meeting we will have **Jamee Pemberton doing a trunk show of her quilting journey.** She fell in love right from the start with this art form; and with boundless energy, she jumped in with both feet passionately and prolifically making quilts! This enthusiastic lecture will include loads of quilts and stories and inspirations for creating them. This lecture should leave you feeling reflective and joyful about your own quilt journey and hopefully impart some inspiring ideas for your next creations

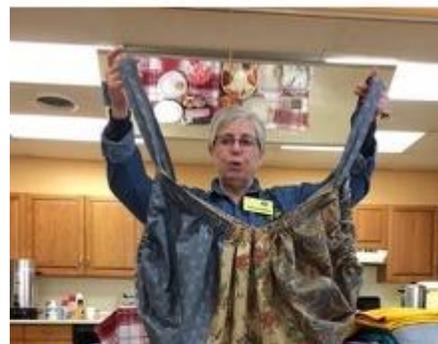

**There will be no workshop in February.**

**On March 9** we will have **Lisa H Calle's Trunk Filled with Anything but Junk.** Come spend a little time with Lisa Calle, the Bernini Ambassador and Award Winning quilter! With her humor and down to earth attitude she will share with you her personal and professional journey of quilting. Lisa illustrates how she has earned renowned success from her initial piece using a 3/8" seam allowance, to her latest quilt that won awards at the Houston International Quilt Festival as you gain insight on Lisa's amazing craft and her 3 step Divide and Design method any hesitation you have regarding the patience or talent for quilting will quickly disappear. So if you doubt whether or not you can quilt with pride, Lisa will give you the confidence and knowledge needed to start. The world of quilting can be yours too.

**On Friday April 13**, Gail Kessler from Ladyfingers Quilt Shop will do her lecture "**From Concept to Cloth**". This is all about how fabrics are designed, printed and distributed. She will also discuss the history of fabric prints made for quilters and how all that came about. Fabric quality and availability is part of the program as well. This includes a trunk show.

## Upcoming workshops

**In March, Angie will be doing her large bag.** We will be doing signups at the meeting. See the picture below:

Gather up your fat quarters and join Angie for her large bag workshop. Sign up and get the fabric requirements.

## Tip of the Month

by Lynn Horng

Quilting notions may have uses beyond the sewing room. While taking down the Christmas tree this year it occurred to me that there is an easier way to string lights than I had been doing. Hold each light to its branch with Wonder Clips! Voila! As an added bonus, if you like this sort of thing, the clips reflect light.

## HCQ Website –

If you heard the presentation about the website in January, please try and print out the Membership Renewal Form. If you missed the presentation and would like a copy of the handout, see Jane Nase at the February meeting.

Please email any pictures of club activities to Jane Nase at [craftsbymj@verizon.net](mailto:craftsbymj@verizon.net). The What's New tab has information and pictures of current workshops, fair etc. If you miss a meeting and don't want to miss Show and Tell, just click on the Show and Tell tab. Treasurer's forms are also available.

## Hospitality Ladies for Feb.

Ladies are responsible for setting up the "goodies" and the coffee, etc. Snacks should be brought to the meeting by 8:45 and no later than 9:00 a.m. as a courtesy to our members.

**Sweet:** Lois VanEerden, Robbie Younger, Judy Trumbore

**Savory:** Connie Landis, Joanne McColgan, Donna Armstrong

**Drink:** Peggy Michener

## Special Note for Refreshments

- Please remember to take your left-over food and the utensils and containers home with you so the committee does not have to worry about them. If you use a container or utensil from the cabinets or drawers, please wash it and put it back. Each month there seems to be items that are unclaimed at the end of the meeting.

## Hint from Jody Beck ¼ inch seams – given at her workshop

Accurate scant or ¼" seams can be easily achieved with a 6" metal sewing gauge with slider (for hemming) and a Dr. Scholl's MoleFOAM pad available at Walgreen's. (Moleskin is too thin). Cut a molefoam pad in half lengthwise, then subcut into ½" wide pieces. Take your 6" metal sewing gauge with slider and the side without notches is a scant ¼" (check it with a quilting ruler). Hand turn the needle down through the center opening being careful not to hit the metal, line up needle on the right side of the space, touching the gauge, make sure the gauge is lined up straight on the machine, peel the paper backing off your little molefoam pad and set in place on the right side of the gauge, along the metal, in front of the feed dogs on your machine. Now you are ready to piece your quilting projects with accuracy by lining up your pieces along the molefoam pad. It does take a little getting used to but it is very accurate once you do.

By using one standard gauge and this method, you can sew any project on a variety of machines whether in a classroom or at home and all your seams will be the same. This can be done using any width on a ruler for any project (1/4", ½", 5/8" or 1" seams). I can sew almost blindfolded. To see a video of this, watch the beginning of my 15 min Stack & Slash Kite block PLUS demo on my website at [jodysjemsquilting.com](http://jodysjemsquilting.com).

The molefoam pad doesn't leave any residue on your machine. When you need to remove it to sew other projects, carefully peel it off making sure you get all of it up, and stick on another place on your machine to use again and again until the top layers have peeled off or the edge has a path worn in it. Throw it away and use a new one. There have been several other gauges that have come out on the market over the years to give you a ¼" measurement, but the important thing is to always have the same type of gauge with you to be consistently accurate wherever you go. It's best to purchase several to have in every sewing box and location where it may be needed.

## Treasurer's Availability

Kathy Schuessler will be available 15 minutes before and after the meeting and during the break for writing checks and taking deposits in the main meeting room. The treasurer's report will be emailed and also placed on the bulletin board.

Mary Kieras had a special exhibition of her quilts at Brittany Pointe during the month of January. It was a wonderful display of her talents.

**Minutes from the December meeting** submitted by Diane Bonck

It was asked if the workshops could be opened to other guilds to help offset the cost & fill a class. These details will be discussed by the Executive Board and they will also check the Bylaws. In March, Angie Roman will be having a workshop for the Big Fat Quarter Bag. Angie has a supply list available.

Through the website we received a donation of fabric and many new members. Thank you Jane and Peggy for your work in helping us understand ease of using the website.

**Another Tip from Jody Beck** also shared at the workshop last month.

Using "tails," as I call them, or leaders and enders, is a great way to save money on thread, keep the tension on your machine when not in use, prevent that little nest of thread on the back of your pieces as you start sewing, and save you a lot time later clipping threads off the back of your quilts. When chain piecing your quilt pieces together, first sew a little scrap of fabric (about 1" square) folded over (2 layers of fabric) before you start sewing your pieces together for your project. When you are finished with all the pieces you need to sew together, sew another little scrap of fabric folded over through the machine, THEN clip BETWEEN this scrap and your last quilt piece sewn, leaving this scrap fabric under the presser foot ready for the next set you sew. Many mechanics have told me this is great for your machine to leave it under the presser foot when you are done sewing for the day or when transporting your machine at the end of class.

**Historian's Column** – This column will have interviews with some of our members who have been in the guild for 30 years or more. This month, Marion Hentz is our featured charter member.

Marion saw an ad in the newspaper about a Quilt Guild starting and she and Donna Fagley decided to attend the meeting. That meeting started an over 30 year love affair with quilting. She also forged lasting friendships with the people she met in the guild. When she moved to her present location at Garden Spot in New Holland, the commute became much more difficult than the jaunt from Collegeville. However, she continues to come and continues to enjoy the camaraderie and the friendships she has formed in the group. She was so impressed with the response to her request for a quilting pattern (6 people came armed with the pattern she wanted). This just doesn't happen in all groups. She participates in projects with the quilting group at Garden Spot also.

Marion is an extremely dependable officer. She has been president, treasurer, quilt show chair and program chair. She is known for her ability to do well what is needed in a timely manner. She thinks sometimes she is a better officer than a quilter (*not sure about that one – she is good at both*).

Marion and her husband, Charlie, have two daughters, three grandsons and one granddaughter. She did hand quilting for her children, but now she sends her larger items to a longarmer. She does do mostly wall hangings.

Marion taught math (*a fond memory of asking directions to Wooden Bridge from a retreat had Marion telling me to turn at the hypotenuse – who else but a math teacher*) and was very involved in Girl Scouts. She was the Service Unit cookie chair for years and had a garage full of cases of cookies with people calling and picking them up. Again, she did those jobs extremely well.

Some of the changes in the quilt world that Marion has seen through the years revolve around the tremendous choices available in fabric and colors. She likes being able to choose a theme such as sports or the thirties and assemble a whole quilt.

**Book Report** *The Big Book of Toppers 56 patterns 2017*  
by *Martingale & Company*

Our lovely librarian, Maureen Britt, approached me in January at the meeting and said I expressed an interest in the book *The Big Book of Table Toppers*. I did not remember saying anything but took a look and it did look interesting. So I took it home to peruse. I was not feeling well for about a week and really enjoyed having a new book to thumb through.

It is a beautifully illustrated book with very clear directions. I made one of the runners already. I will be returning it to the library in February and it is well worth checking out.

Maureen does such a good job choosing books and getting them ready for us. Her smiling face is at the table and the check-out procedure is easy. (No blood required lol). See her for a look at our choices. Remember that the list of available books is also on the website.

Our guild is very lucky that we have such good resources. Not only written but orally in conversation with each other. Every month I overhear at least one person ask a question about something she is trying to do and getting lots of help. Wow, but I wish they could come home with me to actually do it (ha) *Carol Olinick*
